Your main responsibilities are:

- Defining the supply requirements of the company's various departments.
- Drawing up specifications and negotiating contracts with suppliers.
- Identifying and evaluating potential new suppliers, both nationally and internationally.
- Monitor and follow up suppliers to ensure compliance with contractual terms and conditions.
- Checking deliveries and ensuring the conformity of goods and services received.
- Manage the supplier database and keep key information up to date.
- Defining and implementing a solid sourcing strategy, starting from logistics and packaging to strategic purchasing.
- Oversee financial aspects, including payment and delivery terms.

### PROFILE

- You have at least **5 years' experience** as a Purchaser, ideally in the construction sector or in an industrial environment.
- You are fluent in French and English (Dutch is a plus), both written and spoken.
- You are proficient in Windows office software (Excel, Word, etc.).
- You are willing to travel around Europe (mainly Belgium, France, Germany and Great Britain) to discuss with providers and maintaining a relationship of trust.
- You are organized, curious, precise, rigorous, respectful and conscientious

- You have a critical mind, open-minded and results oriented.
- You are a team player.

## OFFER

- The opportunity to join a company on a human scale, with an international reach.
- Joining a technical environment where Innovation and Trust are at the heart of the business.
- A full-time job with a permanent contract and a competitive compensation package salary in line with your experience.
