- Analyzing the **impact of regulatory initiatives** on European operations.
- Conducting **research on policies** and preparing **high-quality internal reports** and presentations.
- Proposing **strategic positions** and **lobbying approaches** for ongoing legislation.
- Attending **key meetings** with **trade associations, conferences, and relevant consortia**.
- Acting as the **primary contact for EU/UK authorities** and **third parties** (OEMs, NGOs, etc.), in coordination with relevant departments.
- Ensure **compliance** of in-service vehicles with regulations.
- Exploring **innovative solutions**, such as **carbon-neutral fuels**, to sustain **internal combustion engine technologies** beyond 2035.

## PROFILE

- You have perfect command of English, both written and spoken.
- You have 2-5 years of experience in the automotive sector, preferably in the field of regulatory technical affairs.
- You have a strong understanding of the functioning of the EU and its institutions, with relevant work experience in EU affairs or EU institutions being a plus.
- You possess excellent analytical and problem-solving skills, with a strategic mindset focused on developing innovative solutions to regulatory challenges.
- You demonstrate strong organizational skills and a proactive, can-do attitude, with the ability to plan and execute your own schedule and initiatives effectively.
- You excel in stakeholder management and communication, building and maintaining relationships with key authorities, associations, and stakeholders.

## OFFER

- A challenging position in an international environment.
- A strategic role in the company's international development.
- A salary package commensurate with the responsibilities of the position and your experience.
